

Dräger X-plore® 1700 NIOSH Dust Masks

Breathe cool, stay safe: Dräger X-plore® 1700 NIOSH makes breathing easy and comfortable. The CoolSAFE™ filter material ideally combines low breathing resistance and high filter performance in one mask. And the CoolMAX™ valve efficiently releases humid and warm exhaled air to the outside. This makes breathing particularly easy and keeps you cool under the mask.

CoolSAFE™ filter material

Performance that makes a difference: CoolSAFE™ filter material produced from high-performance filter media ideally combines low breathing resistance and high filter performance in one mask.

Flexible nose clip

Ensures a great fit, in the most critical area.

Folded form

All Dräger X-plore® 1700s are flat-folded, saving space and making them easier to transport.

Hygienic individual packaging

Each facepiece is individually packed in a plastic bag, ensuring it stays clean and hygienic.

VarioFLEX™ head harness

This continuous loop head harness is constructed from a stable, elastic, textile strap which is easy to don and doff while sitting comfortably with minimal pressure. The soft, tear-proof elastic easily stretched to fit various sizes of head and prevents hair entanglement.

Soft inner layer

Comfortable to wear: the inner material layer is not only soft and hypo-allergenic, but also repels moisture thanks to its hydrophobic properties, keeping breathing resistance constantly low, when used for longer periods of time.

Benefits

CoolSAFE™ filter material

CoolSAFE™ filter material, produced from high-performance filter media, combines low breathing resistance and high filter performance in one mask. The CoolSAFE filter material provides effective protection against fine dust and particles, according to NIOSH 42 CFR 84 protection levels N95 and R95.

Soft inner layer makes for comfortable wear

The inner layer material is not only soft and hypo-allergenic, but also repels moisture hydrophobic properties, keeping breathing resistance consistently low when used for longer periods of time.

CoolMAX™ exhalation valve (optional)

Breathe easy and comfortably thanks to low breathing resistance. The specially engineered CoolMAX™ exhalation valve relieves humid and warm exhaled air, preventing heat build-up underneath the mask, allowing you to stay cool.

VarioFLEX™ head harness

This continuous loop head harness is constructed from a stable, elastic textile strap that is easily donned and doffed, creating comfort with minimal pressure. The soft, tear-proof elastic easily stretches to fit various head sizes and prevents hair entanglement.

Folded form and hygienic individual packaging

All Dräger X-plore® 1700s are flat-folded, saving space and making them easier to transport. Each facepiece is individually packed in a plastic bag, ensuring it stays clean and hygienic.

Secure sealing

Ergonomic shape, comfort nose pad, and flexible nose clip ensures a secure seal and great fit for various facial shapes.
